Made for Land Rover

Freedom, adventure and self expression. They're features of every drive in Discovery, the only 4x4 that lets you realise your dreams and ideas so completely. From the excitement and challenge of the wilderness to the bustling city streets, Discovery opens up new possibilities - through pure Land Rover capability. Now the world's most versatile 4x4 can be even more capable and individual thanks to a comprehensive range of accessories. Designed, engineered and tested to fit and function faultlessly, all accessories are Genuine Land Rover Approved Parts, which means they are tough, stylish and unbeatable; like the vehicle we fit them to. Discovery takes you closer to your personal ideals and aspirations. Genuine Discovery Accessories take you closer still.

How to use this Brochure

This brochure has been specifically designed to make you aware of the benefits of genuine Land Rover accessories. Emphasis has been placed upon informing you of the high levels of engineering design and testing all our products have had to pass before inclusion within the brochure.

The brochure layout includes large detailed images so that you can identify the range of products available and of interest to you. Detailed descriptions where relevant have been provided to highlight the key product features and benefits. Close up and full vehicle view photography has also been included for a number of external products such as nudge bars to enable you to see how a particular product is likely to look on your vehicle.

New product sections called "New Innovations", "Personalisation" and "In-Car Technology" have been added to the brochure to generate awareness of some of the more high technology products available such as Satellite Navigation and Park Distance Control and assist you in selecting the correct accessories for the vehicle look and style you may desire.

There are two ways you can use this brochure;

(1) Simply browse through the brochure and select the accessories which are relevant to your lifestyle or requirements. Or

(2) Use the brochure to discuss your requirements with your local dealer who will be happy to recommend and professionally fit your chosen accessories onto your vehicle.

To assist you further there is also a Land Rover Accessories CD Configurator which enables you to design your own accessorised Discovery on your PC, ask your dealer for a copy.

Land Rover Accessories - Important notice

- Land Rover Accessories are designed in close conjunction with the vehicle designers. Subsequently, all products, from roof racks to the smallest electrical socket, work in harmony with the vehicle's original systems.
- The fitting of non Land Rover Accessories and fixings may lead to failure and damage not only to the accessory but also to your vehicle.
- All Land Rover Accessories are supplied complete with all brackets, fixtures and fittings, where appropriate, along with comprehensive instructions.
- Land Rover operate a global dealer network with full after sales back up. Should you need a replacement for a damaged or lost part such as a lamp lens or a key, wherever you are in the world, simply contact your nearest dealer.

New Innovations

THE DISCOVERY DVD SYSTEM

The Discovery DVD system has been chosen to give rear seat occupants a more enjoyable journey.

The system comprises a compact, single roof mounted, fold down liquid crystal screen and DVD player, which integrates neatly with the surrounding trim colours.

The system can use either the vehicle speakers or the two wired headphones supplied, which allow the rear seat occupants to listen to their DVD or video game without disturbing front seat passengers.

The “On Screen” display of the functions and settings are operated by buttons on the unit, or by using the full function remote control.

Video games, camcorders and other portable video units, may be used by connection to the DVD system colour coded auxiliary inputs. For this, a “power transformer” will be required (see page 26).

PARK DISTANCE CONTROL SYSTEM (PDC)

You can now use your ears as well as your eyes to park accurately in the tightest spaces. Park Distance Control gives you an 'audible measure' of just how close the unseen vehicle or obstacle behind you is, through an intermittent 'beep'. As you approach the obstruction the beep gets faster until at 30 cm the tone becomes continuous to warn of a collision risk.

This innovative system uses ultrasonic sensors mounted in the rear bumper and engages automatically when you select reverse. It can play a vital role in minimising bumps and scrapes picked up in the urban jungle (see page 19).

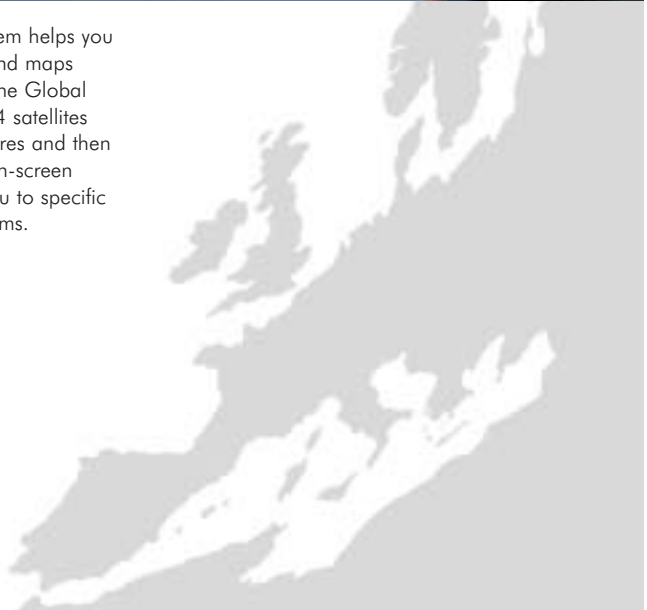

Land Rover recommend dealer fit only.

SATELLITE NAVIGATION SYSTEM

The Land Rover Satellite Navigation System helps you plan the best route to your destination and maps progress throughout the journey. Using the Global Positioning System (GPS) a network of 24 satellites calculates your position to within 30 metres and then guides you with spoken directions and on-screen pictograms. The system can also take you to specific landmarks such as car parks and museums.

See page 26 for full details

INTRODUCTION

Land Rover Accessories give the possibility of fitting to your vehicle many new, innovative products which can significantly enhance your Land Rover driving experience. This Innovations section introduces you to a small range of the accessories available for your vehicle. For full details please refer to the relevant product section within this brochure.

REAR SUSPENSION REMOTE CONTROL PLIP

Among many other things, your Discovery is built for hard work such as towing. But that doesn't mean that you have to work hard too. The Rear Suspension Remote Control Plip gives effortless and precise height adjustment to the self-levelling rear suspension on Discovery, at the touch of a button.

Now there is no need for winding jockey wheels when hitching a trailer; you can set the perfect height without getting your hands dirty (see page 39).

Family/Touring

- Front Accessories**

 - Black wraparound protection bar (see page 20)
 - Safari 5000 lamps (see page 23)
- Side Accessories and wheels**

 - Integrated side runners (see page 11)
 - Mondial alloy wheels (see page 14)

- Rear Accessories**

 - Vinyl spare wheel cover (see page 17)
 - Park Distance Control (see page 27)
 - Adjustable towbar (see page 38)
- Roof Options (not shown)**

 - Expedition roof rack (see page 32)
 - Sports bars (see page 31)
 - Roof rail extensions (see page 30)
 - Cross bars (see page 30)
 - Luggage box (see page 36)

- Interior Accessories (not shown)**
- Load retention system (see page 44)
 - Loadspace side nets (see page 45)
 - Dog guard (see page 45)

 - CD autochanger (see page 27)
 - Sunblind kit (see page 42)
 - Waterproof seat covers (see page 45)
 - Rubber mats (see page 43)
 - Loadspace mat (see page 44)
 - Toy bin (see page 43)
 - Cool / Hot box or refrigerator (see page 48)
 - Headphones (see page 27)

Accessories - a tough choice?

At Land Rover freedom of choice is everything, but sometimes so much choice can make your final decision difficult. To try to help you choose the range of accessories most suitable to your requirements we have illustrated below four areas of activity, some or all of which will be relevant to your lifestyle. The products listed within each section are merely suggestions to aid your selection and are by no means definitive, after all it's your vehicle and your personality.

Executive

- Front Accessories**

 - Black wraparound protection bar (see page 20)
 - Spoiler mounted foglamps (see page 22)
- Side Accessories and wheels**

 - Stainless steel side runners (see page 10)
 - Pro-sport alloy wheels (see page 13)

- Rear Accessories**

 - Polished wheel cover (see page 17)
 - Body coloured wheel cover (see page 17)
 - Detachable towbar (see page 39)
- Roof Options (not shown)**

 - Roof rail extensions (see page 30)
 - Cross bars (see page 30)

- Interior Accessories (not shown)**
- CD autochanger / ICE upgrade (see page 19)
 - Cool/hot box or refrigerator (see page 50)
 - Cubby box phone lid (see page 44)

Adventure

- Front Accessories**

 - Black "A" frame protection bar (see page 21)
 - Lamp guards (see page 22)
 - Safari 5000 lamps (see page 23)
- Side Accessories and wheels**

 - Stainless steel side runners (see page 10)
 - Mud flaps (see page 17)
 - Pro-sport alloy wheels (see page 15)

- Rear Accessories**

 - Vinyl spare wheel cover (see page 17)
 - Rear lamp guards (see page 22)
 - Access ladder (see page 31)
 - Adjustable towbar (see page 38)

Wheel only, Bright finish	RRC000020MCM
Wheel size	18"
Tyre size	255/55.18 109H
Tyre manufacturer	Goodyear

MOULDED WHEEL COVER

Both spare wheel and tyre are protected in this attractive moulded wheel cover incorporating the jewelled Land Rover badge. Available for all wheel sizes.

215 x 16" wheels **STC50041**
235 x 16" wheels **STC50042**
255 x 16" wheels and 255 x 18" wheels **STC50043**

POLISHED WHEEL COVER

Maximum protection from the elements with this good looking, mirror finished, premium quality stainless steel surround wheel cover. This two-piece design with neat locking catch gives security with fast access, and looks great with centre disc in contemporary carbon fibre look and jewelled Land Rover badge. Available for all wheel sizes.

215 x 16" wheels **STC50137**
235 x 16" wheels **STC50138**
255 x 16" wheels **STC50139**
255 x 18" wheels **STC50140**

VINYL WHEEL COVER

Protect your spare wheel from mud and dirt with this premium quality padded vinyl cover, large printed with the distinctive Land Rover logo. Available in all wheel sizes.

215 x 16" wheels **STC50068**
235 x 16" wheels **STC8486AA**
255 x 16" wheels and 255 x 18" wheels **STC50069**

WHEEL NUT KIT

Wheel nut kit is required for all upgrades from steel to alloy wheels and includes a full set of locking and plain wheel nuts.

Wheel nut kit **STC50080**

WHEEL ARCH SPATS

Wheel arch Spats, if not already fitted, are required for 18" alloy wheel upgrades (not shown).

Wheel arch Spats **STC50242**

SNOW CHAINS

Quick and easy to fit snow chains, available for all wheel sizes, offer greater control and pulling power when driving in snow and ice. When not in use can be stored in its own tough vinyl bag.

Snow chains 255/65 x 16", preferably front **STC7565**

Snow chains 235/70 x 16" and 255 x 18", preferably front **STC8518**

MUD FLAPS

Styled to complement the design of the standard fit rear mudflaps, these heavy duty front mud flaps help reduce spray and protect vehicle paintwork. Please note, front mud flaps are not needed when side runners or side protection rails are fitted.

Front mud flaps **STC50067**

Exterior protection and lighting

Exterior protection and lighting

Protection bar, wraparound **STC50020**

PROTECTION BARS

Soft polymer bars protect and enhance the front of your vehicle with a durable polyurethane outer surface. Available either in wraparound or A-frame style. Designed not to interfere with airbag deployment, the bars can be fitted with Rally 1000 lamps.

Protection bar, wraparound	STC50020
Protection bar, A-frame	STC50021

Protection bar, A-frame **STC50021**

FRONT BARS - UP FRONT PROTECTION

All Land Rover accessories are designed to operate correctly with existing vehicle systems, the fitting of non-genuine Land Rover protection bars may result in the failure of airbags to operate correctly.

If in doubt, always consult your Land Rover dealer for further information and advice.

Exterior protection and lighting

Lamp guards, removable, front pair STC50026

Lamp guards, removable, rear set of four STC50027

LAMP GUARDS

Made from an impact resistant composite material with a moulded design which follows the unmistakable contours of the Discovery. They are available for the front and rear, easily removed for lamp cleaning and meet EC light regulations.

Available for all models BUT will not fit with Wraparound Steel Nudge bars or Wraparound Protection Bars

- Lamp guards, removable, front pair STC50026
- Lamp guards, removable, rear set of four STC50027

Headlamp protectors, pair STC50064 shown with continental converters STC50065

ACRYLIC HEADLAMP PROTECTORS

To protect front lens from stone damage and made of tough acrylic for maximum light transmission, this clip-on design does not require drilling and meets EC light output legislation. Also available in the form of Continental Headlamp Converters.

- Headlamp protectors, pair STC50064
- Continental Headlamp Converters, pair STC50065
- Only suitable for vehicles with air suspension.

Fog lamps, spoiler mounted, pair STC50029

FOG LAMPS - SPOILER MOUNTED

Especially designed for the Discovery, these integrated lamps are for mounting on the front spoiler. With moulded surrounds for a neat appearance and optimum height installation to enhance visibility in poor light conditions.

- Fog lamps, spoiler mounted, pair STC50029
- Adhesive (not shown) STC50162
- Fascia switch for auxiliary lamps (not shown) STC50098

SATELLITE NAVIGATION SYSTEM

The Land Rover Satellite Navigation System helps you plan the best route to your destination and maps progress throughout the journey. Using the Global Positioning System (GPS) a network of 24 satellites calculates your position to within 30 metres and then guides you with spoken directions and on-screen pictograms. The system can also take you to specific landmarks such as car parks and museums.

The system comprises a map CD of the UK, dash mounted head unit, GPS antenna and full operating instructions. It also includes a single CD player and RDS tuner.

Satellite Navigation System, UK and Rest of World	STC53198
Satellite Navigation System, USA	STC53199

THE DISCOVERY DVD SYSTEM

The Discovery DVD system has been chosen to give rear seat occupants a more enjoyable journey. The system comprises a compact, single roof mounted, fold down liquid crystal screen and DVD palyer, which integrates neatly with the surrounding trim colours.

The system can use either the vehicle speakers or the two wired headphones supplied which allow the rear seat occupants to listen to their DVD or video game without disturbing front seat passengers.

The “On Screen” display of the functions and settings are operated by buttons on the unit, or by using the full function remote control.

Video games, camcorders and other portable video units, may be used by connection to the DVD system colour coded auxiliary inputs. For this, a “power transformer” will be required.

DVD System, USA, New Headlining	STC619710

Discovery reversing with the aid of park distance control system **STC50424AA**

PARK DISTANCE CONTROL SYSTEM

The PDC system uses ultrasonic sensors mounted in the rear bumper to detect potential obstructions behind the vehicle. When reverse gear is engaged, the driver hears a clear intermittent “beep” when an obstacle is detected, which becomes more rapid on nearing the obstruction. When the obstruction is approximately 30cm from the rear of the vehicle, the tone becomes continuous to warn the driver of a collision risk.

This easy to use automatic parking aid system helps you park your Discovery in the tightest spaces by giving you an audible measure of how close you are to the vehicle or object behind you.

The system is particularly useful when parking near low or small obstacles not visible through the rear window.

Park distance control system	STC50424AA
-------------------------------------	-------------------

Discovery reversing with the aid of park distance control system **STC50424AA**, showing the location of sensors in the rear bumper

Carrying and towing

Roofbars and Racks

LOCKABLE CROSSBARS AND ROOF RAIL EXTENSIONS

Vehicles with factory fitted roof rails require crossbars in order to utilise other carrying systems. The bars are asymmetric, aerofoil in shape for low wind noise and manufactured from black, powder coated aluminium. They can also be positioned at any point along the roof rail for extra carrying flexibility and include a tamper-proof lockable fixing for total security. Roof load capacity 50kg, vehicle height with roof rails 2015mm.

Roof rail extensions seamlessly extend the factory fitted roof rails for longer loads and larger carrying systems. The lockable crossbars are fully compatible with roof rail extensions.

Lockable crossbars, pair **STC50175**
Roof rail extensions, pair **STC50034**

Lockable crossbars, pair STC50175 - Roof rail extensions, pair STC50034

One touch secures the crossbar to the roof rail and a half turn of the key locks it to the rail. The cross bars can be positioned at any point on the roof rail for added flexibility.

Extended roof rails STC50034

SPORTS BARS

If your vehicle is not factory fitted with roof rails, the best way to carry roof loads is with Land Rover Sports bars which clamp to the roof gutter. These are specially designed for transporting a variety of loads including top boxes and sports carrying equipment. They can also be used with vehicles fitted with roof rails and include tie-down rings for awkward loads plus tamper-proof Allen key fixing for security. Roof load capacity 50kg, vehicle height with sports bars 2071mm.

Sports bars, pair **STC8057AC**

Load stops RTC9477

LOAD STOPS & QUICK STRAPS

Load stops adjust to suit a variety of loads, while quick straps secure them firmly to the roof. For use only with sports bars STC8057AC.

Load stops **RTC9477**
Quick straps **STC7566**

Access ladder STC50134

ACCESS LADDER

This ladder has been designed to give you safe and easy access to roof loads. It is manufactured in black powder coated steel for durability and strength.

Roofbars and Racks

Luggage carrier STC50176AA

LUGGAGE CARRIER

A convenient extra carrying facility which is already assembled. End tubes can be positioned up or down to create either a flat-bed or basket platform. The luggage carrier is made from lightweight aluminium maximising roof carrying potential. Will fit either roof rails with crossbars or sports bars

Luggage carrier STC50176AA

Expedition roof rack STC8830AA

EXPEDITION ROOF RACK

A heavy duty roof rack covering the entire roof area for maximum capacity, also features a sturdy raised perimeter frame for secure load retention. Finished in a tough powder coating for improved corrosion resistance, it is suitable for on-road and light off-road duties. For easy fitting and removal the roof rack simply clamps to the roof gutters.

Expedition roof rack STC8830AA

Roof rack RTC9539AC

ROOF RACK

Supplied with full load bed for luggage and bulky loads and tested for security and durability in both on and off-road driving. It is made from durable nylon and polyester coated steel with an aluminium load bed and can be easily removed when not required. It will fit over roof rails, if fitted, and clamps onto the roof gutter. Maximum roof load 50kg.

Roof rack RTC9539AC

Mini roof rails and bars STC50274

MINI ROOF RAILS AND BARS

In order to avoid increasing the overall height of your Discovery yet still benefit from the convenience of roof rails fit the mini roof rail and bar system. These can be fitted to any vehicle not already equipped with factory fitted roof rails and are ideal for smaller loads - skis etc.

Not available in the UK

Carrying and towing

Luggage box CAK000020

LUGGAGE BOX

This Land Rover luggage box is constructed from lightweight and strong ABS giving maximum carrying capability and aerodynamically engineered to reduce wind resistance and noise. The dual action hinges mean the box can be opened kerbside either at home or abroad and aid opening and closing of the box. The box comes complete with a 6 point central locking system for secure load carrying.

External dimensions: 1600mmL x 960mmW x 410mmH. Volume 450 litres. Will fit either roof rails with lockable cross bars and roof rail extensions, or sports bars.

Luggage box

CAK000020

For more information regarding the range of roof systems available, contact your local dealer for a copy of the Land Rover Carrying Systems mini-brochure.

Sports box CAK000030

SPORTS BOX

Designed to securely carry sports equipment such as skis and sails, but also suitable for general luggage, this sports box is constructed from lightweight and strong ABS. The two way aerodynamic engineering reduces wind resistance and noise and allows the box to be fitted for opening kerbside either at home or abroad. Supplied with locks and internal load retaining fixings. External dimensions: 2300mmL x 620mmW x 390mmH. Volume 400 litres. Will fit either roof rails with lockable cross bars and roof rail extensions or sports bars.

Bike carrier shown with padding to prevent damage to bikes

TOW BAR MOUNTED BIKE CARRIER

This bike carrier fits directly onto your Land Rover tow bar. Padded to protect the bike against damage, it will carry two bikes while still allowing a trailer to be towed.

Only compatible with tow bars STC50287AB, STC 50289AB and STC50319, supplied with bike tie-downs.

Carrying and towing

Combination ball/jaw tow unit RTC8159
COMBINATION BALL/JAW TOW UNIT
50mm tow ball and jaw combination, for increased versatility, 3.5 tonne capacity.
Combination ball/jaw tow unit **RTC8159**

Adjustable tow bar
ADJUSTABLE TOW BAR
The adjustable tow bar copes with different trailer coupling heights without the need for any tools. The tow bar can be fitted with either a 50mm tow ball or a ball and jaw assembly. A Shocklink coupling, which reduces trailer pitching and trailer chassis loads can be specified with this tow bar.
Adjustable tow bar, coil sprung vehicles (not shown) **STC50287AA**
Adjustable tow bar, vehicles with self-levelling rear suspension **STC50289AA**
50mm tow ball (not shown) **RTC8891AA**
Combination ball & jaw unit **RTC8159**
“N” type towing electrics kit (not shown) **STC50081**
Shocklink coupling (not shown) **STC7669**

Multi-height tow bar STC50319
MULTI-HEIGHT TOW BAR
A cost effective design which gives a range of towing heights to suit different trailers. The tow bar is supplied complete with a 50mm tow ball and is suitable for all Discovery models.
Multi-height tow bar **STC50319**

Two-position tow bar ANR6643
TWO POSITION TOW BAR
Featuring a swan neck design with two height positions and includes “N” type electrics, a tube of grease and protective gloves. An extension box is available to give a greater range of towing heights and allows use of the STC50063 bike carrier or combination tow ball and jaw. The detachable conversion kit allows instant removal of the tow ball when not in use.
A special version of this tow bar includes the detachable tow ball and European type 13 pin electrics.
Two-position tow bar, suitable for coil sprung vehicles **ANR6643**
Extension box, with 50mm tow ball **STC50038**
Detachable tow ball conversion kit **STC50036**
Two-position tow bar, with detachable tow ball and 13 pin electrics system (not shown). Not available in the UK **STC50035**

Detachable tow ball conversion kit STC50036
DETACHABLE TOW BALL CONVERSION KIT
This lockable tow ball is easily removed when not required, avoiding the possibility of accidental contact when accessing rear luggage/passenger space, ideal for 7 seat Discoverys.
Detachable tow ball conversion kit **STC50036**
Shown removed

Leather cleaner	300ml	STC4684
Fabric cleaner	300ml	STC4685
Insect remover	300ml	STC4686

The Land Rover Experience

For over 50 years Land Rover have been bringing the world the best 4x4's by far. The heroic Defender, the tough luxury that is Range Rover, Discovery creating a new breed of 4x4 and most recently the Freelander, the leading, award winning sports utility vehicle.

But beyond the vehicles, Land Rover bring you so much more; Land Rover is a way of life, a promise of adventure and a new lease of freedom. The Land Rover experience is educational, entertaining and fun.

Through the Land Rover Driving Experience, Land Rover are progressively opening up off-road driving centres all over the world, giving customers the opportunity to maximise their enjoyment of their vehicle and become better all-round drivers.

Land Rover also recognise that the right gear for the job is important. There is a range of Land Rover Gear. From tough, go-anywhere clothing for all climates, to hardware that includes thermal mugs, radios that do not need batteries and even replica models of the vehicles for the children.

As for the promise of adventure, the world is your oyster and where in the world do you want to go? A ten day trek across Alaska? Retrace Hannibal's Trail over the Alps? Through the jungle and rainforest of Belize to rediscover the mysteries of the Maya? Or cross the Kalahari? Land Rover Adventures span the globe, from the UK to the USA, Africa to Australia.

For further details contact:

www.landrover.com

LAND ROVER ACCESSORIES - TESTING AND SAFETY

As with the vehicles themselves, Land Rover Genuine Accessories must undergo stringent quality and performance testing, after all they are part of the vehicle. Every accessory must perform everywhere and, whenever possible, they are attached to and tested with the vehicle during its development and test cycle.

The Combined Road Environment Simulation Test takes place in a climate controlled chamber which produces temperatures from

-40°C up to +50°C, 50% humidity and simulated intense sunlight. In addition, a computer controlled hydraulic system can simulate any driving condition from smooth motorway to extreme off-road. The vehicle and accessories spend 10 days in the chamber after which time they have covered the equivalent of 15,000 miles in the toughest conditions possible.

Heavy duty accessories such as tow bars are subjected to rig testing where up to 2 million load cycles are replicated to ensure the inherent strength of a design. The plastics and

fabrics used in our accessories must be Ultra Violet stable and fade resistant. All metallic components experience 1000 hours of continuous salt spray testing for rust/corrosion proofing.

All vehicle manufacturers must crash test their products. At Land Rover we also include relevant accessories in the exercise. For example, all protection bars are crash tested to ensure that any energy absorption caused does not impede the safe operation of the airbags when you need them.

Testing is not limited to simulation alone, the vehicles and accessories are also sent to the hottest, coldest and most inhospitable places on the planet for extensive field trials. So, if you find yourself in an extreme condition rest assured that Discovery and its range of accessories have already been there.

It is important to note that the fitting of non-genuine Land Rover protection bars may result in the failure of airbags to operate correctly.

Environmentally conscious

In addition to delivering improved fuel economy and reduced CO₂ emissions, the Discovery uses only water-based paints. Whilst providing the highest quality paint finish, the spraying process reduces solvent emissions by over 50%.

Ozone depleting gases such as CFC's and HCFC's have been eliminated from all vehicle components and production processes.

Discovery's manufacturing process improvements have resulted in 30% reductions in CO₂ emissions and 41% savings in water usage per vehicle. (Between 1991-1998.)

Innovative designing means that over 80% of the vehicle's components can be recycled at the end of its life.

A true 'lifetime ownership' philosophy ensures that your Discovery satisfies all your driving needs.

This publication is for international usage and whilst Land Rover take the utmost care in ensuring that all details in the publication are correct at the time of going to press, we are constantly striving for improvement and therefore reserve the right to alter specifications and equipment without notice. Details of specifications and equipment are also subject to change to suit local market conditions and requirements, and not all products are available in every market. Some vehicles are shown with accessories or optional equipment fitted. These products vary from market to market, please consult your Land Rover dealer who will be pleased to advise you on current specifications. Distributors and dealers are not agents of Land Rover and have absolutely no authority to bind Land Rover to any express or implied undertaking or representation.
